

■ BULLON — From Meme to Meaning

Whitepaper | October 2025

1. Introduction

\$BULLON is a community-powered memecoin born on Pump.fun, created to represent the unstoppable energy of bull markets and the spirit of believers who never stop building. While \$BULLON began as a fun, culture-driven token, its vision extends far beyond memes — we aim to evolve into a utility-rich ecosystem empowering creators, communities, and builders in Web3. Our mission: Turn hype into purpose. Turn memes into movement.

2. Token Overview

Token Name	BULLON
Ticker Symbol	\$BULLON
Blockchain	Solana
Launch Platform	Pump.fun
Total Supply	1,000,000,000 (1B)
Token Type	SPL (Solana Program Library)
Initial Distribution	100% fair launch via Pump.fun
Ownership	Community-driven (no presale, no team allocation)

3. The BULLON Vision

BULLON represents a new wave of memecoins that move from viral hype to actual utility. Our roadmap focuses on three pillars: 1. Community → Ownership: Reward early holders, build BULLON DAO. 2. Utility → Use Cases: Introduce BULLON Pay & BULLON Vaults. 3. Culture → Sustainability: Support creators & partnerships.

5. Tokenomics

Allocation	%	Amount (BULLON)	Notes
Community Launch	85%	850,000,000	Released via Pump.fun & liquidity pool
Ecosystem Growth Fund	10%	100,000,000	For partnerships, staking rewards, dev incentives
Treasury Reserve (DAO)	5%	50,000,000	To fund community proposals

9. Final Words

“Memes move markets — but utility keeps them alive.” \$BULLON is here to prove that the next generation of memecoins doesn’t just moon — it builds.
